

	in 5 × table	in 3 × table
in 2 × table		
in 7 × table		

Put these numbers in the correct place in the Carroll diagram:

50	24	35	6	36
10	40	21	18	12

Using numbers below 50, how many numbers can you put into EACH part of the Venn diagram...?

Use what you know about number bonds to 10 to complete the number bonds to 20:

$$\begin{array}{rcl}
 11 + & \underline{\hspace{2cm}} & = 20 \\
 17 + & \underline{\hspace{2cm}} & = 20 \\
 13 + & \underline{\hspace{2cm}} & = 20 \\
 15 + & \underline{\hspace{2cm}} & = 20 \\
 14 + & \underline{\hspace{2cm}} & = 20 \\
 18 + & \underline{\hspace{2cm}} & = 20
 \end{array}$$
